

Environmental Policy

DD Chemco is committed to reducing its impact on the environment. We will strive to improve our environmental performance over time and to initiate additional projects and activities that will further reduce our impacts on the environment. This environmental policy is applicable to our only location in Los Angeles, California.

We proactively provide the necessary advice and information to all partners along our supply chain to help them ensure their safety and health, as well as the protection of the environment.

Our commitment to the environment extends to our customers, our staff, and the community in which we operate. We are committed to:

- Reduce the use of fossil fuel powered equipment on premises
- Reduce electricity usage and GHGs
 - Establish the reporting baseline and set emission reduction targets for 2023 onwards
 - Design implementation plan to install additional carbon neutral energy by 2030
- Implementation of a solid waste management strategy
 - Establish the reporting baseline and set the targets for 2023 onwards
- Prevent environmental incidents in warehouses and during transportation
- Distribute products in accordance with all international, domestic, and local environmental and transportation regulations
- Proper disposal in accordance with stringent local regulations
- Offer renewable sourced raw materials such as sustainable and biodegradable sourcing
